Features and summary of the professional journal CAR & HIFI:

- ... the ambitious interior is **superbly manufactured**.
- ... almost **160 watts (4 times!)** could be measured, in bridged status the **1604** results **two times a half of a kilowatt**.
- ... nearly **no distortion**, but a **high damping factor**.
- ... short and crisp: the **sound** of the **AUDIO SYSTEM 1604** is remarkable!

Conclusion:

The **AUDIO SYSTEM 1604** represents a perfect combination of power, joy of playing, reliability and musical demands. Congratulations!
